IA 1.17.

Dear Dr. Conklin,

I sympathize
with any one burdened
with professional labors
and fully agree that you
do right in taking more time
for your lectures.

Of the cytological lectures
I believe I have all except
yours and Mead's. Mead
hopes to finish very soon. Goadwell
has finished his.

I hope you are adjusted
on the vivarium matter, and
that all goes well. You
are greatly to be congratulated
on having a President equal
to such a splendid step. I
envy you.

Yours truly
C. O. Whitman
