Jan. 18. 1899?

The University of Chicago

My dear Kingsley

I should like to propose the Biol. Bulletin as a medium of publication for the paper presented at the Morph. Soc. We could take the paper in hand at once and could certainly give satisfaction. Will you kindly let me know what you think of this?

Very truly

C. D. Whitman

Dear Conklin:

I have just recd this from Whitman. Have written him to the effect that I know little about the matter except that there was complaint about slowness of Journ. Morph. & that you, as chairman, would probably confer with him. Regards to Mrs. C.

Yours Kingsley
